

Tutorial on how to using the Mighty AMP app with the NUX Mighty Lite BT.

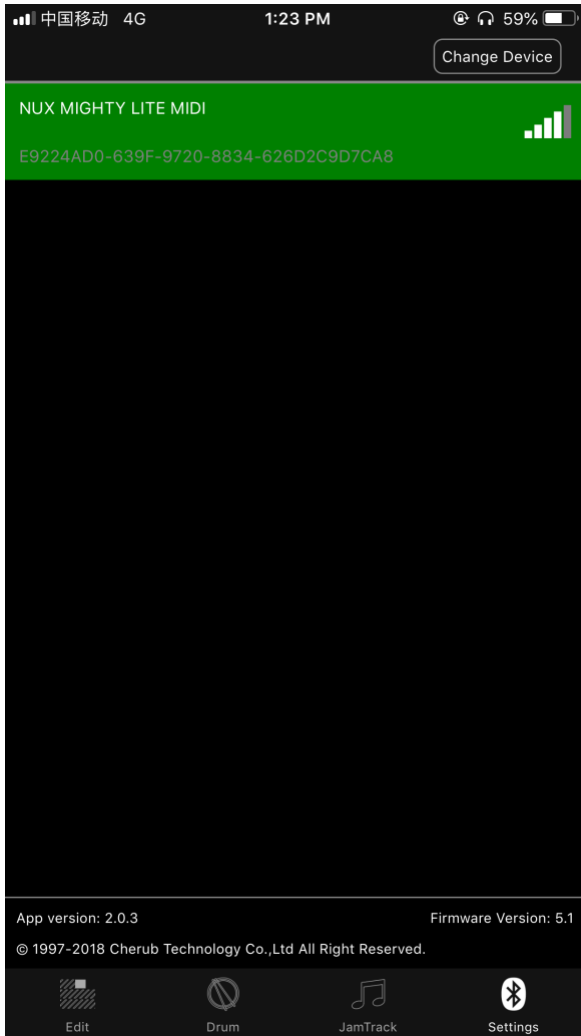

1. Please upgrade your Mighty Lite BT's firmware to the latest version: 5.1
2. Please upgrade your Mighty AMP app to the latest version: 2.0.3
3. Power on the amp
4. Go to the Bluetooth setting menu of your iPhone/Android, find the device named "NUX Mighty LITE", tap to connect.

- Once it's connected, run the Mighty Amp APP, go to the setting menu, find the device named" NUX Mighty LITE MIDI" , tap to connect.

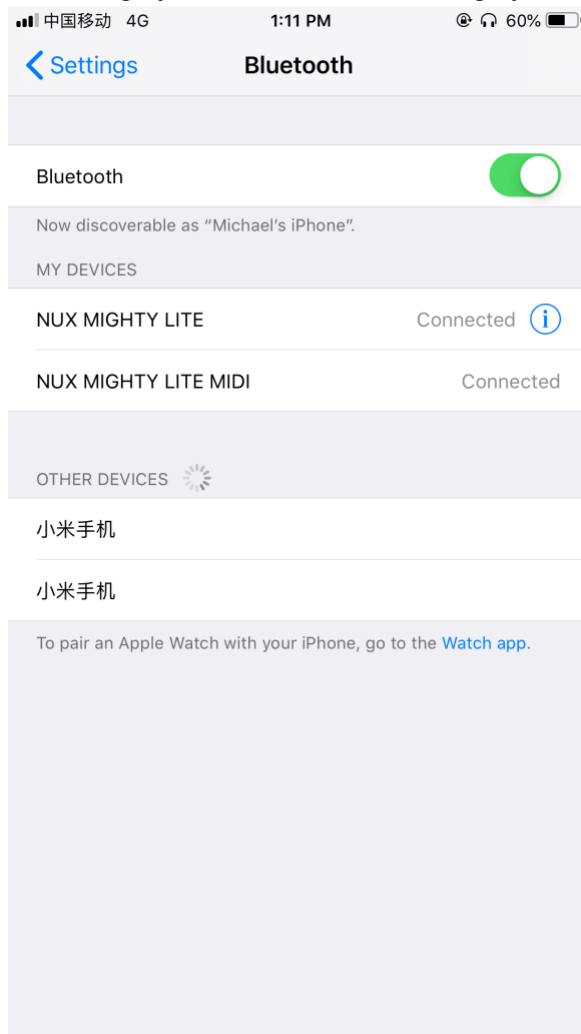

(Bluetooth MIDI connection not established)

(Bluetooth MIDI Connection Established)

- Go back to the Bluetooth setting menu of your iPhone/ Android, you'll see both the "NUX Mighty Lite" and the "NUX Mighty Lite MIDI" are connected.

- Enjoy & Have fun.
